

POETRY IN MOTION // TH3SCR1B3.ART

PIM:TH3V4ULT BRAND STYLE GUIDE

Official Design System, Brand Identity, Visual Philosophy, Color Tokens,
and Mechanics Specification for the Hybrid Live-Service Audio
Collectibles Platform.

SECTION 01

VISION & THE RETENTION THESIS

PIM is a systems product bridging a high-precision HTML5 Canvas 3-lane rhythm game with an audio-reactive digital collectible card engine under an uncompromising technical brutalist aesthetic.

THE RETENTION THESIS

MUSIC UNLOCKS GAMEPLAY → GAMEPLAY UNLOCKS OWNERSHIP → OWNERSHIP UNLOCKS STATUS

01. MUSIC

Engages players with 365 daily song drops (one for every day of the calendar year) accessed via deep links and chapter maps.

02. GAMEPLAY

High accuracy (>70% Bronze to 100% Platinum) earns collectible card drops containing session stems, registry proofs, and card burn assets.

03. OWNERSHIP

Players forge duplicates, elevate global prestige scores, showcase streaks, unlock 1-of-1 First Discoverer stamps, and bind to Base EVM wallets.

THE THREE SIMULTANEOUS ECONOMIES

THE SKILL ECONOMY

Governed by millisecond timing windows, swipe precision, hold ribbon tracking, and unbroken combo multipliers up to 5x.

THE SCARCITY ECONOMY

Powered by global hard supply caps, rarity tiers (Common to Mythic), mintable vs. gameplay splits, and card burning sinks.

THE SOCIAL ECONOMY

Expressed through collection prestige points, global leaderboard telemetry, replay ghosts, and 1-of-1 First Discoverer certifications.

CORE AESTHETIC DIRECTIVE

PIM rejects generic, soft, rounded SaaS interfaces in favor of **Technical Brutalism meets High-Fidelity Cyber Neon**. Think military HUDs, tactile synthesizer chassis, and glowing terminal telemetry.

SECTION 02

COLOR PALETTE & TOKENS

The color system pairs deep monolithic darks with high-chroma neon accents keyed directly to gameplay tiers, lane channels, and rarity classes.

NEON ACCENT SYSTEM

ACTION / OVERRIDE NEON ORANGE / CORE #FF3800 / #FF5500 Primary brand buttons, vault doors, critical overrides.	MIDS / UNCOMMON NEON CYAN #00E5FF Lane 1 (Mids audio), hold ribbon guides, Uncommon tier.	RARE / SIGNAL LOCK NEON GREEN #39FF14 Signal Lock combo states, active telemetry, Rare tier.
FEVER / LEGENDARY POWER GOLD #E5B800 / #FFD700 Fever mode aura, 7-day streak badges, Legendary tier.	BASS / MYTHIC PRISMATIC PURPLE #A855F7 Lane 0 (Bass audio), Mythic glow aura, Echo decay.	SURGE / LIGHT HOT PINK #FF1493 Surge 3x combo overdrive, primary play actions.

BASE STRUCTURAL NEUTRALS

BASE VOID BLACK #000000 Root background & 3D canvas viewport.	PANELS CORRIDOR CHARCOAL #0C0C14 / #08080C Backdrop layout sections, modals & drawers.	GRIDS CYBER SLATE #18181B / #27272A Grid lines, inactive slots, borders.
---	--	--

SECTION 03

TYPOGRAPHY & GEOMETRIC MOTIFS

Typography establishes strict separation between high-impact aesthetic headlines and dense monospace telemetry readouts.

DISPLAY & BRAND TITLES // OUTFIT (WEIGHT 800-900)

POETRY IN MOTION

Uppercase geometric sans-serif with wide tracking (0.2em - 0.5em). Used for logos, hero headlines, chapter banners, and rarity headers.

METADATA & TELEMETRY // JETBRAINS MONO / ROBOTO MONO

SCORE: 984,200 // ACC: 99.4% [PERFECT+]

Tabular figures, high readability under motion. Used for scores, timestamps, card IDs, audio Hz filters, and smart contract addresses.

COMPONENT STYLING & GEOMETRIC UTILITIES

SHEARED ACTION BUTTONS

Utilizes CSS clip-path to enforce 8px polygon sheared corners.

GLASSMORPHIC SURFACES

`backdrop-filter: blur(20px) saturate(1.4);`
Multi-layered depth with 1px semi-transparent borders (`rgba(255,255,255,0.08)`).

CRT SCANLINES & VIGNETTES

Repeating 3px scanline gradient with `mix-blend-mode: multiply` to replicate arcade hardware monitors.

REMIX RUNE SIGNATURE ⚡

Ethereal glowing rune head. Hitting triggers stem isolation (vocals/bass), canvas palette inversion, and +1,000 bonus points.

SECTION 04

RARITY MATRIX & THE FORGE

Every collectible card is bound to strict hard supply limits, audio preview tiers, and on-chain mintable quotas on Base Mainnet.

Rarity Tier	Color Accent	Gameplay Cap	Mintable Cap	Burn Value	Audio Access
COMMON	Void Gray	2,000	0 (Off-Chain)	3 V⚡	15s Preview
UNCOMMON	Neon Cyan	500	50	10 V⚡	60s Preview
RARE	Neon Green	100	25	30 V⚡	Full Track
LEGENDARY	Power Gold	10	3	80 V⚡	Full Track
MYTHIC	Prismatic Purple	1	1	200 V⚡	Full Track + Stems

THE FORGE OPERATIONS

**CARD BURNING**

Deconstruct duplicate cards into **V⚡ tokens** to power targeted pulls and rarity upgrades.

**TARGETED REQUISITION**

Spend **500 V⚡** to guarantee pull any specific card from the 365-day release catalog.

**RARITY UPGRADE**

Spend **150 V⚡** to upgrade an owned card to the next higher rarity tier.

**DUPLICATE FUSION**

Combine **3 identical copies** (same song & rarity) to forge 1 guaranteed card of the next tier.

ECHO CARD GENERATIONAL DECAY

Echo cards yield high instant prestige but experience decay across generations: Gen 0 (1.0x) → Gen 1 (0.6x) → Gen 2 (0.3x) → Gen 3+ (0.1x Entropy Death).

SECTION 05

BRAND VOICE & GOVERNANCE

Every line of copywriting and UX text must reinforce the feeling of an elite, clandestine audio archive operative.

APPROVED TERMINOLOGY (DO)

- **Operative / Collector** (Not "User" / "Customer")
- **TH3V4ULT / The Codex** (Not "Library" / "Catalog")
- **Rip Packs / Daily Drop** (Not "Loot Box" / "Reward")
- **Burn in The Forge** (Not "Recycle" / "Sell")
- **Signal Lock / Overdrive** (Not "Bonus Mode")
- **Remix Rune ⚡** (Not "Power-up")

PROHIBITED TROPES (DON'T)

- **Soft, friendly pastel tones** (Violates brutalist identity)
- **Rounded pill buttons** (Always use sheared angles)
- **Corporate SaaS jargon** ("Synergy", "Click here")
- **Pay-to-win mechanics** (Skill drives ownership)
- **Generic Web3 crypto buzzwords** ("To the moon", "HODL")
- **Unattributed audio degradation** (Always reflect misses in DSP)

SYSTEM AUTHENTICATION PROTOCOL

BASE MAINNET & PROGRESSIVE DECENTRALIZATION

- **Target Chain:** Base Mainnet (Chain ID **8453** / **0x2105**)
- **Smart Wallet Integration:** Coinbase Smart Wallet with EIP-1271 signature validation and paymaster gas sponsorship.
- **Web2 Onboarding Fallback:** Supabase Magic Link with local ephemeral client wallet generation ensures frictionless onboarding without wallet hurdles.
